

Incontinence, pelvic pain or pelvic floor problems impact more than 25 million people. Eighty percent of those affected can benefit from education, individualized therapy and exercise as alternatives to surgery and/or medication.

If you're dealing with bladder or pelvic floor issues, BayCare can help. Some of the common diagnoses we treat are:

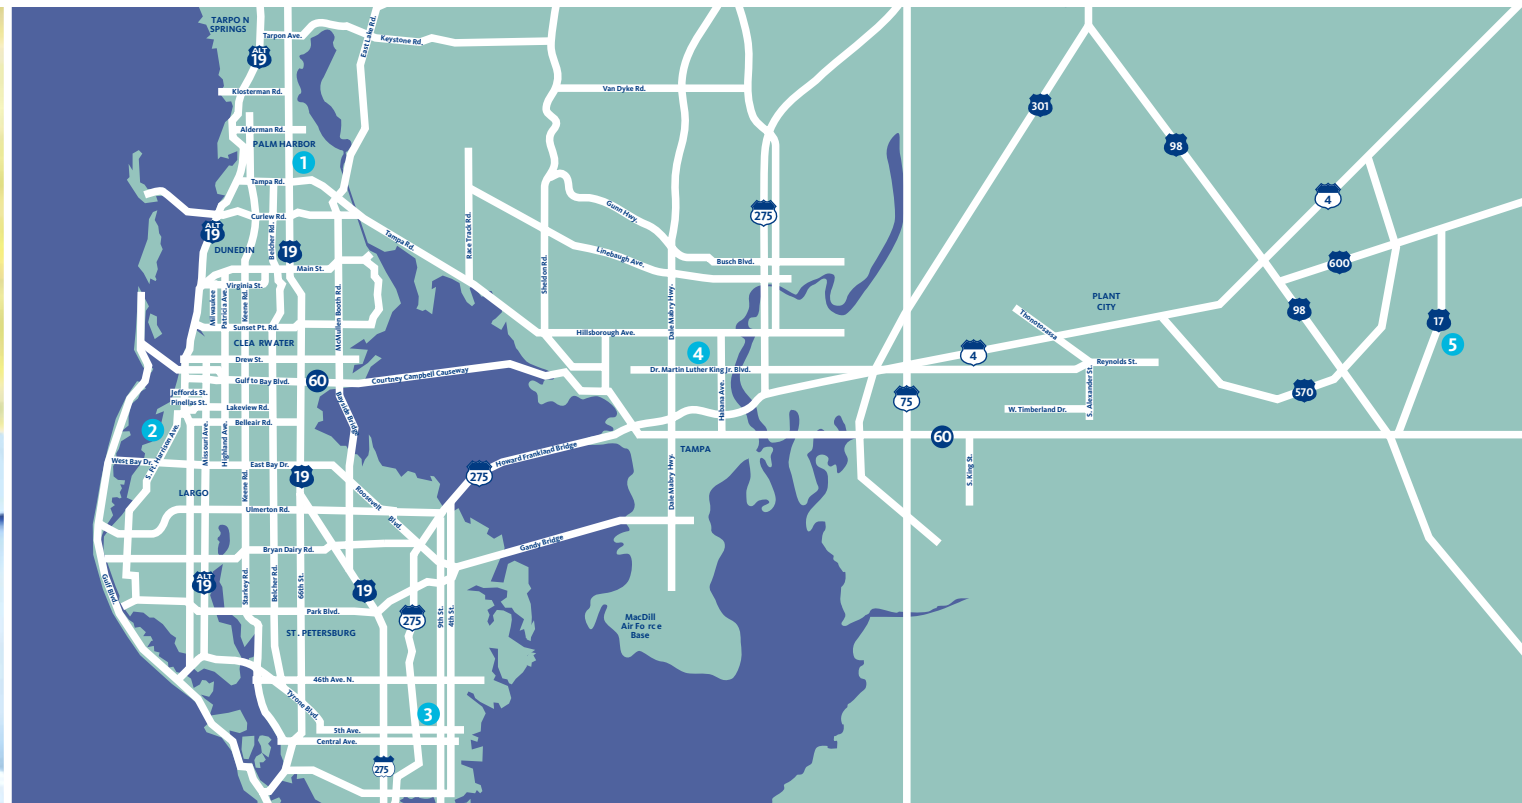

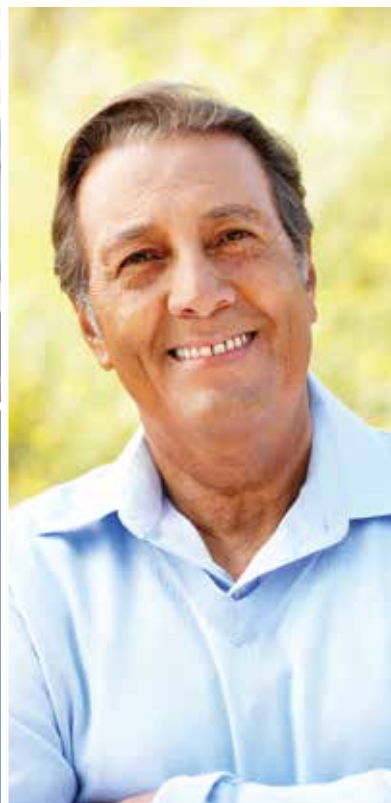

- Stress incontinence  
(urine leakage with coughing or sneezing)
- Urge incontinence
- Urinary retention
- Urinary urgency and frequency
- Fecal incontinence
- Constipation
- Pelvic pain
- Tailbone pain
- Vulvar pain
- Painful intercourse
- Pre and post pelvic surgery concerns
- Prenatal/postpartum rehabilitation

# Pelvic Health and Wellness

Outpatient Rehabilitation

## Regain Control with Lifestyle Changes and Special Exercises

You will have a thorough evaluation focusing on your specific issue or diagnosis. A plan of care will be tailored to individual needs and may include:

- Pelvic floor muscle training (strengthening and relaxation of the pelvic floor)
- Education including bladder and bowel retraining
- Electrical stimulation of the pelvic floor muscles
- Internal massage and manual therapy techniques
- Review of bladder irritants
- Personalized home exercise program
- Therapeutic exercise

**If you experience incontinence, urinary frequency or pelvic pain, contact your physician. A referral is required for the Pelvic Health and Wellness Program.**
