

Florida State University College of Medicine
Family Medicine Residency
at BayCare Health System (Winter Haven, Florida)

Family Medicine Residency

Mission: Provide a dynamic, professional learning environment, grounded in the concepts of life-long learning, teaching, compassion, quality improvement, evidence-based medicine and scholarship

Vision: Develop compassionate, patient-centered, well-rounded family physicians who passionately serve their patients and communities as the next generation of family physicians in Central Florida

Values: Our core values include integrity, humility, service and belief that all people are created with innate value and deserve dignity, respect and superior care

Choosing a Residency Program

Choosing a residency program is an important decision. Not only will it affect the next three years of your life, it will also affect the course of your medical career. Many new doctors choose to build their practice close to where they complete their residency, so the location should appeal to you and your family. Location isn't the only important consideration, however. The quality of the program and its affiliated hospitals should be high on your list of criteria. The Florida State University College of Medicine Family Medicine Residency at BayCare Health System (Winter Haven) in central Florida is a blend of quality hospitals, a superior family medicine residency program and beautiful climate.

Resources of a Major University

The Family Medicine Residency is strengthened by a partnership with Florida State University (FSU) in Tallahassee, which boasts one of the finest medical schools in the state. The FSU College of Medicine is mission-driven toward primary care and was specifically created to respond to community needs, especially through service to elder, rural, minority and underserved populations. As a resident, you can tap into FSU's extensive resources including its medical library and mobile simulation center.

Hospitals with Medical Excellence

Founded in 1926, Winter Haven Hospital is a 468-bed acute-care hospital which provides extensive services including interventional cardiology and cardiothoracic surgery, emergency care services, oncology, orthopedics and inpatient psychiatry. By upholding this standard of excellence in all that we do, patients are provided with customized, state-of-the-art treatments in a comfortable environment. Winter Haven Hospital is a national IBM Watson top performer for care quality. Nearby Winter Haven Women's Hospital is a 61-bed obstetric hospital that specializes in maternity services as well as neonatal care with a level II NICU and a new obstetric urgent care unit.

Winter Haven Hospital is part of BayCare Health System, which provides patients with comprehensive health care services through a network of 15 hospitals, numerous outpatient facilities, and auxiliary services including behavioral and home health. BayCare provides patients with a lifetime of complete, expert medical care.

The Right Location to Launch Your Medical Career

There's much more to the FSU Family Medicine Residency in Winter Haven than our beautiful chain of lakes and proximity to Disney World! If you want an exceptional education in one of the nation's best health care environments, look no further. FSU and Winter Haven Hospital will train, challenge and motivate you to reach your full potential as a family physician.

When You Join Our Team

The Family Medicine Residency in Winter Haven equips residents with the wisdom and practical knowledge needed to establish fulfilling, lifelong careers in family medicine. Residents will learn from the community's finest family medicine physicians and board-certified specialists, many of whom are nationally recognized. Winter Haven Hospital's state-of-the-art facilities and advanced technologies further ensure that training is on the cutting edge of today's ever-changing field of medicine. The Family Medicine Residency includes a longitudinal Management of Health Systems curriculum to ensure graduating residents receive thorough training in practice management, leadership skills and the practical tools to build a patient-centered medical home.

The Family Health Center

As a family medicine resident in Winter Haven, your education will revolve around the Family Health Center, a modern, community-based facility. Here, you'll practice family medicine in a challenging and supportive environment. Under the direction of family medicine faculty, you'll assume responsibility for the total health care of patients, both individuals and families, and you'll encounter the broad spectrum of family medicine, from birth to middle age to later life and death/dying.
